HOLISTIC PHILOSOPHY

Vivere EQUILIBRIUM MEAL

by Mister Pet

*Vivere: living in harmony between
the environment and your dog*

Vivere pet food line products have been created to meet the needs of all the people who love and respect nature, in order to live in harmony with it.

We at Mister Pet know how much you love your dog and want to be able to feed him natural products that are environment-friendly and good for his wellbeing.

Key Points of Difference | Meats

- Wide Meat Variety than the average in Low Grain category: «wide» means Healthy Diet
- Selection and combination of Novel Proteins: great options for those dogs that are sensitive to foods or suffer from food allergies!
- Meat Variety very high in Protein Value (bioavailability) and low in cholesterol and fat

MISTERPET

Key Points of Difference | Home made!

- Omega 3 and 6 made in-house
- Digest made in-house
- We process all our meats/fish in-house at our Kitchen
- We made our own blend of antioxidants-botanicals-herbs in-house to support the Nutrobiome of our pet-lovers

EQUILIBRIUM MEAL
Vivere

*Vivere: living in harmony
between nature and food*

Our four-legged friends do not only need a genuine diet, they also need to be loved, play and run with us outdoors and live by our side in a healthy and environment-friendly way.

This is an important balance that needs to be maintained in order to protect every living being on our planet: that is exactly why a sustainable diet is the first step to contribute to

respect the environment.

*Vivere is a
sustainable project*

We at Mister Pet have always paid attention to innovation and production cycle, creating a top-quality product that meets the needs of your dog in an environment-friendly and balanced way. We do not produce waste: we use photovoltaic panels covering almost all electric power requirements and purify the air and water used in the production processes, in order to return them to nature in the same condition as when they were sourced.

Ingredients Contents

- High Meat Content: 51%
- High Fresh Meat content: 20%
- Variety of Meats/Fish: up to 7 different type of meats
- High Animal Ingredients: 60%
- 20% Brown Rice (Low GI)
- 20% of Fruits, Vegetable and botanical herbs

- Low in GI
- Low in Cholesterol
- GMO Free Certified
- Steam pre-cooked
- Fish Certified

Key Unique Combination by Mister Pet

- Cooked with a lot of meat (50%) of which a fresh part (20%) and a total quantity of animal ingredients of 60%.
- With a range of products with a low content of cereals, developed using only the most precious cereal of all: brown rice (20%) which, combined with peas, manages to maintain a lower and more regular glycemic index.
- Vivere recipes have a content of 20% of vegetables, fruit and officinal herbs that we have carefully selected for their beneficial properties.

Scientific and Nutraceutical Approach

- And continuous study and search of new ingredients, blends, omegas to offer high quality recipes
- Supported by in-house expert veterinarians and nutritionists with prestigious Universities (Bologna and Udine).

MISTERPET

Nutritional and Key Features:

- **Fresh meat** that helps increase palatability, digestibility and nutritional value.
- **Medicinal herbs**, whose essences and active ingredients can help the functions of specific organs.
- **Omega 3**, useful for the well-being of the skin, for the shiny coat and for the circulatory system.
- **Fruit**, rich in vitamins and minerals, as a source of natural antioxidants that help counteract tissue aging.
- **Prebiotics**, which promote the balance of the intestinal flora
- The Vivere Dog line has got the **QUALITY AWARDS 2021 and 2022** as the best food in the Low Grain category.

Mister Pet Nutritional Philosophy| Whole-Body Health, Microbiome

Nurturing the intestinal microbiome through “Mister Pet special blend” maintains whole-body, digestive and immune health, daily. At Mister Pet we carefully choose a blend of prebiotics, fibre, multivitamins and antioxidants”

1. Maintaining gut Microbiome health, its diversity, is central to whole body health
2. The selection of the raw ingredients is the most important factor, feeding for a healthy Microbiome
3. Feeding the Microbiome with a blend of ingredients
 - Feed the right ingredient blend for the microbiome and for metabolite production

OUR Blend of Fruits, Vegetables and Medicinal Herbs | NUTRACEUTICAL APPROACH

Carefully selected botanicals, phytonutrients and other nutraceuticals also support a healthy immune system and harmony of body and mind

Nutraceuticals

“food or part of a food that provides medical or health benefits, including the prevention and/or treatment of a disease”

Botanicals: a substance obtained or derived from a plant

Phytonutrients: are natural bioactive (botanical) compounds obtained from plants that perform specific biological activities, to improve general health (nutraceutical)

PINEAPPLE, APPLE

Plenty of fruit, an excellent help for the intestine during digestion.

POMEGRANATE, BLACKBERRY, CRANBERRY, BILBERRY, DOG ROSE, ROSEMARY

Rich in vitamins, minerals and antioxidants to fight free radicals.

DANDELION, MILK THISTLE

Medicinal plants that perform a liver protective action.

Holistic Nutrition, Total Protection

LESPEDeza, CRANBERRY, BILBERRY

Thanks to their diuretic properties, they are highly beneficial for the urinary tract.

YUCCA

Rich in mineral salts, it is also effective in reducing the smell of feces and urine.

SEAWEED

A rich source of iodine and mineral salts, it helps the metabolism of pets for increased general wellness.

OUR Blend of Fruits, Vegetables and Medicinal Herbs | NUTRACEUTICAL APPROACH

Carefully selected botanicals, phytonutrients and other nutraceuticals also support a healthy immune system

1. 69% of concerned consumers have considered adding immune strength-enhancing products to their pet's diet (result of COVID)
2. COVID increased immunity concerns, general health also covers physical & mental
3. younger consumers looking at more natural remedies, natural living
4. Fruit, excellent source of fibre and antioxidant phytonutrients
5. Polyphenols (phytonutrients) antioxidant properties, help with gut integrity

Vivere

EQUILIBRIUM MEAL

by Mister Pet

Meat and Fish Ingredients

MISTERPET

Lamb: a red meat that can offer many nutritional benefits to dogs and cats.

- Helps the nervous system: Lamb is an excellent source of B vitamins, including riboflavin (B2), niacin (B3), vitamin B6 and vitamin B12. These vitamins are essential for promoting proper functioning of the nervous system of dogs and cats.
- Great source of Iron
- Helps the immune system: lamb is an excellent source of zinc.

Italian Buffalo | A great Novel Protein!

- Buffalo is a low allergen meat source perfect for dogs with allergies
- Highly digestible for good nutrient absorption and smaller eliminations
- Rich in vitamins B6, B12, and vitamin D
- A good source of calcium, potassium, CoQ10 enzymes, and long-chain omega-3 fatty acids
- 70-90% less fat as compared to other meats like beef and pork
- Beneficial to heart health
- High protein meat source

Italian Buffalo | Higher in protein, omega-3 fatty acids, and omega-6!

- Lower cholesterol levels.
- Lower sodium levels.
- High in Iron

Italian Buffalo free-run Farmer

What makes Duck an excellent source of protein and fat?

- Duck meat is an almost perfect source of protein because it is lean, easy to digest and low in saturated fat.
- Duck meat is high in monounsaturated and polyunsaturated healthy fats, making it a great source of energy!
- Another very good option for those dogs that are sensitive to foods or suffer from food allergies

MISTERPET

Duck contains important antioxidants, iron and vitamins

- Duck meat is rich in antioxidants, such as zinc and selenium.
- Antioxidants are important to support your dogs and cat's immune system and to help protect it from bacterial infections, viruses, parasites and other pathogens.
- They not only support the immune system but can also promote thyroid function.
- This is very important to help tackle issues such as hair loss, dry or irritated skin, and indigestion.
- Duck is rich in iron and vitamins: duck meat contains a significant amount of iron. Iron is responsible for several physiological processes, including the formation of red blood cells and hemoglobin.
- Duck meat is also a good source of vitamins A and B3, as well as several minerals.

MISTERPET

Chicken meat |

- Chicken is a lean, low-calorie and high-protein meat.
- It is an easy to digest meat.
- Likewise, the vitamins and minerals found in chicken help support and strengthen your dog and cat's immune system.

MISTERPET

SALMON| Salmon is a great source of omega-3 fatty acids and protein!

- Which help promote a healthy skin and coat for your dog and cat.
- Omega 3 is also useful for his heart and immune system, may decrease inflammation.
- Older dogs and dogs with arthritis can benefit from salmon as it assists in the reduction of inflammation and stiffness in the joints.

MISTERPET

HERRING | Whole Herring are an excellent source of

- Omega 3 essential fatty acid
- Vitamin D, calcium, selenium & phosphorus
- which support bone strength, cellular function, cardiovascular health, and overall wellness
